

POSITIVE IMPROVEMENTS ON THE PLANET

suicide bombs in the capital city of Colombo. As a result, panic and anxiety prevailed throughout the whole country, with fully armed soldiers patrolling and inspecting passers-by everywhere.

At the moment of curfew and crisis, Master arrived in Colombo in 2000 and delivered an open lecture. Sincere Truth seekers came to greet Master despite the threat to their own security. Since then, the conflict has greatly subsided and the international community has shown much more attention and concern for the well being of this island. For example, in 2002 Norway acted as an intermediary and helped the two sides arrive at a ceasefire agreement, which enabled the start of negotiations. In February 2006, both sides met in Geneva to proceed with the first round of peace talks.

Although some extremists were reluctant for the peace talks to go ahead and tried to create further conflict, both sides are still determined to go for peace. They expect the next round of peace talks to progress with fewer obstacles as the whole situation becomes more stable and secure. 🌸

Note from editor: * Though peace is still at the horizon, we print this article to support Sri Lanka's hope for a more harmonious future!

Letters between Master and Disciples

Deep Yearning for Complete Initiation

By a half-initiate in China (Originally in Chinese)

Dear Master,

Greetings to You!

When I feel overwhelmed by difficulty, I pray silently to You for help. You bestow calmness on me, helping me accept the things that I cannot change.

When I am about to lose faith and am afraid to move forward, I silently pray for Your grace. You bestow courage on me, helping me change the things that I can change.

When I am confused and hesitant, I silently pray for Your guidance. You bestow wisdom on me, helping me make the right decision.

Master, Your power is omnipresent. It is You who have revitalized the weariness in me. It is You who have taught me to lead a spiritual life. Each time I read Your books, listen to Your tapes or watch Your videos, it always cleanses my mind and soul. I want very much to cleanse myself of the worldly dust in order to become enlightened and know my Self Nature.

Witnessing my grandmother, my father and my mother practicing diligently after their initiation, becoming more understanding, leading spiritual and noble lives together and becoming increasingly amicable and kind, I admire them very much. However, I am only half-initiated, and there is a yearning deep within my soul. I am anxiously waiting every day to receive full initiation and practice the complete Quan Yin Method. I hope I may soon be liberated from this ephemeral world and return to my Home in Heaven! 🌸
